A GREAT MEDICAL DISCOVERY VINEGAR BITTERS

Hundreds of Thousands

THEY ARE NOT A VILE

FANCY DRINK, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors dectored, spiced and sweetened to please the taste, called "Tonics," "Appetite rea," "Restorcs," e.c., that lead the tippler on to drunkenness and ruin, but are a true Medlelne, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE a perfect Renovator and Invigorator of the System, earrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

\$100 will be given for an incurable case, provided

tion and remain long unwell.

\$100 will be given for an incurable case, provided
the bones are not destroyed by mineral poison or
other means, and the vital organs wasted beyond the

point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspessia or Indigestion, Billious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these Bitters have been most successful. Such Diseases are caused by Vittated Blood, which is generally produced by derangement of the Directive Organs.

ful. Such Diseases are caused by vittitud Blood, which is generally produced by derangement of the Digestive Organs.

D'SPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Couchs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Blataste in the Mouth, Billous Attacks, Palphiation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dysepsia. They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

GOLSKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Bolls, Carbuncles, Ring, Worms, Scald-Head, Sore Eyes, Eryslotas, Hels, Seurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and earried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

such cases will convince the most incredutous of the curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other WORMS, lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

The Tariff Question. The reader will quite understand that the choice between the Canadian Tariff and our present one has been remitted to the Legislative Council to decide, and that it stands completely disassociated from the main question of Confederation. We confess to some disappointment at the remarks of the Hon Mr Trutch upon this subject, on Wednesday, when moving to go into Committee on the Confederation Terms He said that if called upon to make a choice between the two tariffs he would not hesitate to accept that of Canada, as it meant reduced taxation: but that, inasmuch as it was not absolutely necessary that the question should be decided now, he thought it might be better to delay the decision till some future period. So very much has already appeared in these columns upon this subject that we trust we shall be justified in assuming that the general public fully understand its merits Indeed, the unanimity with which the electors throughout the Colony pronounced in favor of the Canadian Tariff at the polls would appear to dispel all doubt upon that point. And it would, indeed, be strange if the colonists should prefer to retain the present high and ill-adjusted tariff, under Confederation, thereby paying into the Domission Treasury a little short of one hundred thousand dollars a year more than their fair share of Customs revenue; and all for the sake of securing to the people of Vanconver Island, the Lower Fraser and the seacoast settlements, the luxury of the seacoast settlements, the luxury of paying a tax of \$1 50 instead of 25cts per barrel on flour, and the people of every part of the Colony paying \$2 50, instead of 80 ciper gallon on spirits. But, it appears to be agreed on all hands that the Canadian Tariff will be preferable to our own, under a system which takes the revenue derived from customs duties away out of the Colony. The only dispute is as to whether a decision should be come to now or at some future time. We are utterly at a loss to discover a cogent reason for postponing the decision; but we can furnish more than one against delay. Admitted that the Canadian tariff is preferable to the present one, why delay the acceptance of an ackowledged good? Admitted that the change is to be made, the sooner it is made the better, To the commercial mind the objections to such delay must be clear and irresistible. To suspend such a change over the commerce of the country is to paralyze trade. It can be no secret that under Confederation, with the Canadian Tariff, our commercial connections will undergo material changes. The sooner an end is put to all suspense upon the subject of tariffs the better. If we are to have the Canadian Tariff, the sooner we accept it the better for all interests and all classes. Any delay must operate most injuriously to trade. Were there any reason to think that the mind of the Colony had not been intelligently and conclusively made up in reference to this question one could understand the proposition to postpone its settlement. But no pretence of the kind can be urged. Perhaps no question has ever been more fully discussed and better understood. Certainly none has ever evoked a more uneqivocal verdict at the In every constituency, save one, has the verdict been distinct and em-Tariff." And even new do we see the Main. land holding public meetings and reso-Canadian Tariff But, we do not for a moment imagine that the Liegislative Council will hesitate. Eight out of the nine elected members are pledged to vote for the immediate acceptance of the Canadian tariff, and there is no reason to think they will go counter to their pledges. The appointed members known that the people have pronounced in favor of the immediate acceptance of the Canadian Tariff, and there is no reason for supposing that they will set themselves in opposition to the intelli-gent wish of the people. Both the elected and appointed members must know that it is the true interest of the Colony to accept the Canadian Tariff, and they are not likely to run counter to reason, and interest, and common

THE PROCLIVITIES FOR SENSATION-It is as THE PROCLIVITIES FOR SENSATION—It is as tonishing that in this modern, and supposed to be more reined age, that a custom still exists which originated in the Fifteenth Century from an accidental circumstance of Maids and Bachelors amusing themselves on the 14th of February, by drawing lottery-wise, a name to be taken seriously or in joke, to represent their future wives or husbands. This custom modernized, exhibits the same tendency, in the form of Valentines. Some chaste in appearance and sentiment, and others grotesque and calculated to please or offend. I. N. Hibbon & Co. are prepared for the coming St. Valentine's Day in the modern and most pleasing form.

AUTUMN AND WINTER .- The study of the seasons is ever interesting and amply repays the student, who now learns that A B Gr y, Government street, has just received a la ge Government street, has just received a la ge stock of Fall Goods, comprising Winceys, Serges, Plaids, French Merines, Waterproof Tweeds, Astracan Cloth, Alpacas, Flannels, Blankets, Sheetings, Ladies' and Ohildren's Jackets, Shawls, Hosiery, Silk Umbrellas, Hats, Feathers, Flowers, Ribbons, &c, &c, together with a choice selection of Fancy Small Wares suitable for the measure season—(hyperment springs, Depresent season. — GOYERNMENT STREET, De-cember, 1870.

MARRIED.

At St Mary's Church, Sapperton, on the 14th inst, by the Yen. Archdeacon Woods, Adolphon Peele, youngest son of R W Peele, Feq. of Long Sutton, Lincoln-hire, Eng-land, to Julia Anu, daughter of J H Pit s, Esq., of san Francisco

SDIED.

In this city on the 19th inst, Willio D, eldest zon of Thomas G, and Lizzie A. Moody, aged one year and fou nonths

Legislative Council.

Council met at 1 p m. Prosent — The hop Speaker, hon Chief Commissioner, hon Attorney-General, hon Collector of Custome, hon Dr Carrall, hon Dr Helmeken, Mr Nathon, Mr Skinner Mr Bunster, Mr Alston, Mr DeCosmos, Mr Pemberton, Mr Cornwall.

Mr T B Humphraya Tarakan A. FRIBAY, Jan 20th, 1871.

Mr T B Humphreys, member for Lilloost was sworn in by the Speaker and took his seat at the Council board.

Minutes of the last meeting read and con-

MESSAGE

From His Excellency the Governor submitmiting to the Council a Bill providing for the coatingent service for the year 1871.

The Bill was read a first and second time and ordered to be committed on Monday

PRIVILEGE.

Mr Humphreys said he had understood that it had been stated by the Speaker that each member of the Council elect had had six weeks' netice of the sitting of the Coun-

cil.
The hon Speaker replied that it had been stated that the returning officers were instructed at the time the writs were issued that the Congrel would meet the first week that the Council would meet the first week

in January.

'Mr Homphreys said that he waited upon the Magistrate to learn when the Council would assemble, and that officer was unable to inform him He (Mr Humphreys) thought such neglect quite untair, and that a member residing at so great a distance from the capital as he did should have had ample notice of the time of meeting of the Council.

capital as ha did should have had ample notice of the time of meeting of the Couccil.

Hon Attorney General — When the writs were sent to the Returning Officers they were informed that the Council would meet the first week in January. This was done to save time, for they knew that in order to hold the restrion in time to legislate on the weeking of Confederation so as to secure question of Confederation so as to secure union by the 1-t of July there would not be time to notify the distant members after the returns were in.

returns were in.

Mr Humphreys said he spoke of the matter now more for the purpose of preventing any such neglect in the future, so that no honorable gentleman should be neglect. glected in regard to getting timely notice. ROAD STEAMERS.

Hon Dr Carrali gave notice that on Mon day he would ask leave to bring in a Bill to facilitate the introduction into this colony of Thompson's Patent Read Steamers. TARIFF.

Mr Nathan gave notice that on Monday be would move the adoption, simultaneously with Confederation, of the Canadian Tariff. ROAD TOLLS.

Mr Humphreys gave notice that he would on Monday move that all flour manufactured from wheat raised in the colony be exempt from road tells.

ORDERS OF THE DAY. The Council went into Committee of the

Whole on the

praying for Confederation, Mr Pemberton in the Chair.

the Chair.

Hon Chief Commissioner proposed as proper division of Districts in the colony for the return of representatives to the House of Commons of Canada, the following schedule to be added to the Address (published on

Thursday):
That New Westminster District and the That New Westminster District and the West Coast District as defined in a public notice issued from the Lands and Works Office on the 15th day of December, 1869, by desire of the Governor, and purporting to be in accordance with the provision of the 39th clause of the Minefal Ordinance, 1869, shall constitute and district, to be desiranted as clause of the Mineral Ordinance, 1869, shall constitute one district, to be designated as New Westminster District and return one member; that Cariboo District and Lilloost District as specified in the said public notice, shall constitute one district to be designated Cariboo District and return one member; that Yale District and Kootensy District as specified in the said public notice, shall constitute one district to be designated Yale District and return one member. That shall constitute one district to be designated Yale District and return one member. That those portions of Vancouver Island known as Victoria District, Esquimalt District and Metchoria District, as defined in the Official Maps of those Districts in the Land Otto cial Disps of those Districts in the Little Office of Victoria, which maps are designated respectively Victoria District Official Map, 1858, Esquimatt District Official Map, 1858, and Matshesin District Official Map, 1858, and Metenosin District Official Map, 1858, shall constitute one district to be designated Victoria District and return two members and that all the remainder of Vancouver Isand that all the remainder of Vancouver Island and all such Islands adjacent thereto as were formerly dependencies of the late colony of Vancouver Island constitute one district to be designated Vancouver Island

district to be designated valued verification.

Betrict and return one member.

Hon Chief Commissioner said he now laid this proposition before the Council as one which he thought fair and equitable, but if they thought differently they could of course offer such amendments as they pleas-

Mr Cornwall moved the following as a

amendment:
That four members be apportioned to the That four members be apportioned to the Mainland and two to Vancouver Island; that the Mainland Districts be the following: 1 New Westminster and the Lower Fraser, including Yale. 2 Lyton, Okangan and Kootenay. 3 Lillocet and the West Coast. 4 Cariboo and all the country to the north, Mr Cornwall thought the division as proposed by the schedule submitted by the hin Chief Commissioner munically union to

posed by the schedule submitted by the first Commissioner manifestly unjust to the mainland portion of the colony, and with considerable force urged the consideration due to the Mainland, both in regard to population to the Mainland, but him regard to population to the Mainland, but him regard to population to the Mainland of the major that Mainland of the major that Mainland of the major and the major that Mainland of the major and the major that the

onlation was the true basis of representation polation was the true date of representation in the basis was made on territorial grounds. Vancouver Island would only be entitled to a fractional portion of a member. The civa fractional portion of a member. The civil zed population was as great on Vancouver leland as it was on the Mainland. With regard to the division made of the Island, he questioned the wisdom of dividing the Island questioned the wisdom of dividing the Island into two Districts only. The population outside of this city was sufficient to justify two Districts. Victoria City has always had two classes of voters—one doing business and residing in the city, and another class doing business in town and residing in the District, and voting in both City and District. The District he represented numbered as many nativeborn British subject as there were in the city. were in the city.

Mr Nelson thought the population of the

Mr Nelson thought the population of the Mainland was greater than that of Vancouver Island, and at no time in the history of British Columbia has the population of Vancouver Island been equal to that of the Mainland, and he knew the increase of the population on the Mainland would be far greater in the future. It was not fair to take the present time for making such an unequal divisior. The probability of the increase of the Mainland population should be taken into account.

Mr Humphreys would support the amendment, not because he was a Mainland mean

ment, not because he was a Mainland mem-ber, but because it was right. This was not the only blunder the Delegates had made. This question should have been previously the only blunder the Delegates had made. This question should have been previously considered. They should have known that six members would cause a squabble. Had they made the number seven then there would have been four for the Mainland and three for the Island. He could show why the Mainland should have more members than the Island. The Mainland was vastly more extensive and the interior for agricultural purposes far surpassed Vancouver Island, which he described as being rocky and worthless except as to its coal. He thought the population of the mainland exceeded that of Vancouver Island. The balance of power had always been held by the Island. They had the advantage of concentration. To go through a District on the mainland took about two months. Some of the Districts were larger than Ireland, some as large as all of Vancouver Island. He was not inflemed by any feeling of jealousy towards this Island. He was under great obligation to the people of Victoria, and he wanted to see it fairly represented. It was but lair and just that the mainland should have five representatives. There was a feeling on the mainland that the Victoriaes want to hornsweggle everything, and he thought the dry dock and other things were considered. He swoggle everything, and he thought the dry dock and other things were considered. He thought they were really trying to horn-

thought they were really trying to norms awoggle everything.

Mr Nations said the hon member for New Was in favor of Victoria. He (Mr Nathan) thought the population of Vancouver Islan equal to that of the mainland at the prosent time, and the future should legislate for isself. He thought an equal division fair and conticible.

equitable.

Mr Humphreys said that something more than the mere assertion of the junior member for Victoria City was necessary to decide the question. He (Mr Humphreys) reiterated question. He (Mr Humphreys) reiterated what he had said about the superiority of the maioland over Vancouver Island, and said that this Island had more power that would make up for the difference of memhers for the Commons by having the Sena-

appointed from Victoria.

Dr Carrall said as the number was even and the population on the Mainland greater than that on the Island, and as the increase would be in favor of the Mainland, he thought they should have four members instead of three. He would therefore support the amendment of the hon member for Yale.

Hon Dr Helmoken said should the amendment be carried he would oppose Confedera-tion. He was sorry to hear the words Mainland and Vancouver Island mixed up together. We should know only the whole colony. He had not the slightest doubt that colony. He had not the slightest doubt that the population of Vancouver Island was greater than that of the mainland, and so what effect was the amount of land? None. The land had no effect, but only the people. There was no other possible division but three and three. We were asked why we did not get seven members instead of six. We have a larger number of representatives now than our proportion. The hon member for Cariboo wants to pour oil on the troubled waters, but instead of that he makes the matter worse. He did not think the feeling prevailed in Victoria that was attributed to it by the Mainland members. We have endeavored on all occasions to do more than justice to the Mainland. There are no disjustice to the Mainland. There are no dis-tricts on the Mainland that can give so large a population as the districts proposed for Vancouver Island. This matter should not be treated as purely local. There are no local questions to be dealt with in the Ca-nadian Parliament—only Dominional mat-ters come up there. It is wicked, therefore, to raise local questions in such a cose as this. As to what was said about the selfishness of Victoria, they looked after their own interests just as people of the other districts looked after theirs. As regarded the population, he did not think the increase would be as great on the Mainland as on the Island. So far as he was able to see he would back Vancouver Island against the

to come. Mr Nelson remarked upon the inconsistency of the hon member for Victoria City in saying that locality should not be con-sidered in this matter, when he had said in the commencement of his speech that if four

Mainland on the score of population for ten

members were given to the Maioland he would vote against Confederation.

Mr Humph eys said the bon member for Mir Humph'eys saut the non-measure Victoris had made many blunders besides those made on the delegation. He said Vancouver Island must have three members but she must put up with two. He also said population would increase on the Island faster then it would on the Mainland. In this he was also mistaken. The Island had no land for people to settle on and the Main-land had. The Mainland was entitled to a larger representation in regard to population, wealth, intelligence and every other thing that makes a country great. He would warn hon members. He knew where the strength of the Victoria party lay—every

man. Mr Bunster replied to Mr Humphreys derogatory remarks respecting the land of Vancouver Island and instanced the productiveness of the Island soil in support of his position.

tion is based on population, and according to the population which we have we should have less than six representatives; but the Dominion Government, in view of the probable rapid increase of our population, have given us a larger number. If the division made was to last for all time we might give the Mainland a larger number, but as the representation is to be according to population, we should do as other provinces have dono—make the repre-sentation according to population when we enter the Union, and as the population of of the two sections was considered about equal, he thought the members should be equally divided now; and when the census was taken (on years benee let the represen-tation be regulated on the basis of the increased population.

Hou Chief Commissioner said this was

not a Government measure. Each member of the Government was at liberty to vote according to his conscientious convictions. according to his consequentions convictions. That we could not equitably divide the six otherwise than was proposed. If there were five or seven to be divided he should give the majority to the Maioland, but with the existing number he thought the proposition equitable. There was a larger white population on Vancouver Island than on the Maioland, and there was a larger amount of land under cultivation on the Island than land under cultivation on the Island than on the Mainland (Hear, hear,) Considerably more than one-half of the money-wealth of the country was on the Island, but in the future there was much more room for expaneion on the Mainland than on the Island. If there were any way to give the Mainland a majority without giving it double the number given the Island he should cheerfully acquiesce; but he saw no way open for the Government to do so. Finally, in giving a vote, he wished it to be understood that he gave it independent of the Government.

Mr Humphreys contended that the Main-

land was entitled to four members and the Island only two.

Mr DeCosmos said that the Registral

General was wrong in stating that the number of representatives must remain the same as now until 1881.

The bon Attorney General in reply quoted trom the British North America Act and showed that a readjustment of the number of representatives could only take place after each decennial consus.

The vote was then taken upon the amend

The vote was then taken upon the amend ment with the following result: Ayes—Mr Cornwall, Mr Skinner, Mr Nelson, Mr Alston, Mr Humphreys, hon Dr Carrall—6. Nays—Hon Chief Commissioner, hon Dr Helmeten, Mr Nathan, Mr DeCosmos, Mr Buuster, hon Collector of Customs, hon Collector, hon Attorney General—8.

Mr DeCosmos moved—

1. That all that portion of Vancouver Island north of the 49th parallel with all

Island north of the 49th parallel, with all contiguous islands of the late colony of Vancouver Island, be one Electoral District to be called Nancimo District and be entitled to one member.

2. That the City of Victoria and Victoria District, formerly electoral districts of the late Colony of Vancouver Island, be one late Colony of electoral district to be-called Victoria City District and be entitled to one member.

3. That all that portion of Vancouver Island, not including any portion of the aforo-said Districts of Nansimo and Victoria

City, be one electoral district, to be called Vancouver District and be entitled to return one member. Mr Bunster seconded because he did not think two Victoria members would protect

farming interests.

Hon Dr Helmcken rose to support the origin nal resolution because we should have then an equal division of the Island, i.e., that Victoria District with two members would com-prise two-thirds of the population leaving the remaining third one member. So far as the farming interests went they would have little or nothing to do with them at Ottawa.

Mr Humphreys supported the amendment of the hon member for Victoria District. Hon Attorney General would vote for the resolution for the same reason that he had voted against the amendment, viz : Accord. ing to the spirit of the British North America Act, which makes population the basis of representation. Such a division as the amendment proposed would be unlair to the Mainland as well as the Island.

The amendment was lost-4 ayes to ?

The original resolution was carried—8 ayes to 3 noes. The noes were Messrs De-Cosmos, Bunster and Humphreys.

The Committee rose and reported and the Address and Terms were declared to be adopted—Mr Humphreys voting only in the negative.
Hon Chief Commissioner — Is that vote

onanimous?

Mr Humphreys—No.

Hon Chief Commissioner—It is not? Very

well, then. Mr Speaker, I call for the ayes and nays to be recorded.

Mr DeCosmos (turning to Mr Humphreys)

Does the bon gentleman know what the address means ?

Mr Humphreys-Oh! Do you mean the

address?
Mr DeCosmos-The whole thing.

Mr Humphreys-Oh, then I vote for it. (8 laugh.)
HonChief Commissioner—Theo, MrChair-

man, I move that it be recorded that the vote is unanimous. And it was so recorded.
Hon Chief Commissioner, seconded by Mr

Nathau, moved the following address:

TO HIS EXCELLENCY THE GOVERNOR: May it please Your Excellency,-We the members of the Legislative Council, in Council assembled, having agreed to an address to her Most Gracious Majesty, praying that Her Majesty will be graciously pleased by and with the advice of Her Most Honorable Privy Council to admit British Columbia under the provisions of the 146th section of the British North America Act into the Union or Dominion of Canada on the basis of the terms and conditions offered to this colony by the Government of the Dominion of Canada, as is in such address set forth, do hereby pray that Your Excellency

may be pleased to transmit such address to Her Majesty's Principal Secretary of State for the Colonies, to be laid at the foot of the Throne.

Hon Dr Carrall asked leave to introduce this Bill. He alluded to the importance of encouraging the introduction of machinery and the employing foreign capital in the development of the mineral wealth of the colony. He gave a brief history of the 'Mead-ows,' the ground to be worked by the Lane & Kortz Co, and expressed his belief that it would yield large returns and that it would encourage similar effort in other localities. Leave was granted. The Bill was read a first time, and the second reading was set down for Monday.

of constructing a bridge across Nanaimo

Hon Di Carrall remarked that it was rather late, inasmuch as the Estimates had been firally disposed of, and a Bill of Supply had

passed a first reading.

Mr Bunster asked that Supplementary Estimates might be made for these expen-ditures. (laughter)

Hou Chief Commissioner asked for infor-

mation about the number of 'armers who would be benefitted by the proposed brigge Mr Bunster mentioned sine farmers we required the bridge, and said that one farmer

had told him that his wife waited a whole day to get across the river and nearly died for want of company.

Hon Chief Commissioner said to locate

the bridge at the spot proposed would render the construction of two roads of approach necessary. The Council might vote the sum, but he was puzzled to know where the money was to come from.

Mr DeCosmos supported the motion.

Mr Nelson opposed it. Two-thirds of the revenue appropriated for such purposes had gone to the Island, and if there way any more money to be spent it should go to the Mainland, where there were far more necessary works than the one under consideration. The motion was carried.

Mr Busster moved for a sum of \$750 to build a bildge at Comox. Hon Chie! Commissioner stated that provision was made for that in the Estimates.

Resolution carried. The Council adjourned till Monday at 1 o'clook p.m. DEATH OF JOHN COSTELLO. - John Costello,

better known by the sobriquet of 'Billy the Bug,' died at Race Rocks Lighthouse on Thursday morning under very distressing circumstances. On Tuesday afternoon the poor man left Victoria in an open boat with poor man left Victoria in an open boat with supplies for the lighthouse, twelve miles distant. A gale sprang up shortly afterwards and he was driven past the rocks to the American eide. During the blow he lost the sail, next the oars and finally the rudder. He was exposed to the fury of the storm all Tuesday and Wedneedsy night, and early on Thursday morning managed, with a piece of board which he fore from the bottem of the hoat, to reach the rock. He was in a terboat, to reach the rock. He was in a ter-ribly reduced state from exposure and his wants were at once attended to by the light-

keepers; but he senk rapidly and died shortly after reaching the rock. A boat sailed last evening to bring the remains to town for interment, Costel o was a kind-hearted man—his own worst enewas a kind-heatted man—his own worst enemy—and was ever foremost in relieving distress while be neglected his own wants. He
was a native of Ireland and started in life
as a blackmith and was once a diver. Arriving here in 1858, he took up boating,
and in 1860 was carrying pilot Brodrick to a
vessel outside this harbor when the boat
was upset and Brodrick drowned. Billy,
after blicking some hours to the better. after clinging some hours to the bottum of the boat, reached shore. He leaves a wife and several children quite destitute. The funeral will take place from his residence

Bastion street, to-morrow at 2 P M. A vol-unteer band will be in attendance. The

unteer band will be in attendance. The Fire Department have been solicited and

citizens generally are invited to attend. A VICTORIA ITHY FROM A PORT TOWNSHIP PAPAR .- Our lively cotemporary of the Pert Townsend Message furnishes the following amusing paragaph. The wag will be easily recognized :-"There is a gentleman in Victoria who has a natural talent for drawing animals. Not long since be executed two very nice pictures, one of a wounded lion and another of a dying lion. These drawings were given by him to the Governor. Recently (?) at a given by him to the Governor. Recently (1) at a party given by His Excellency, His Grace the Bishop of British Columbia, who had been examining the pictures, remarked to the gentleman who drew them, who was also a guest on the eccasion, "My dear sir, I have been admiring your lions; pray tell me if you made the eketches of the animals in the East?" "Yes, your Grace," was the reply. "My dear sir," says the Bishop, "pray sit down. I am delighted to have met you, and we will now have some conversation about the East." Whereupon His Grace gave a very animated description of his visit to the Holy Land and in the course of the conversation asked the geatleman if he remembered a particular view geatleman if he remembered a particular view on the road between Damascus and Jerusalem, "No, your Grace," was the reply, "I never was there." "What," says the Bishop, rising from his seat, "you never were there, yet you assure me you sketched those lions in the East?" 'Se I did," replied the graceless wag, "but it was in the Eastern States, in a measurem." The Bishop who had thought wag, "but it was in the Eastern States, in a menagerie." The Bishop, who had thought there was no other Eest than the Levant, was struck with profound admiration and imme-diately retired within bimself for reflection."

A PERILOUS PASSAGE. - The colonial brig Robert Cowan of Victoria arrived at Hono. lulu; S.I., on the 26th of December after a tempestuous passage from Sooke of 41 days tempeatuous passage from Socke of 41 days. Capt Weeks furnishes the following memoranda to the Hawaiian papers; Left Sooke, Vancouver Island, on the 5th November with an easterly wind down the Straits. After passing Cape Flattery, met with the wind from the southward, which continued in that quarter from the 6th to the 27th, blowing almost one continued gale. The wind finally canted a little to the westward which eastled us to work to the conthward. which enabled us to work to the southward, making us 21 days from Cape Flattery to latitude 40. On the 31 December had heavy gale from the westward, with a high cross sea running and broaking over us, at times deluging the brig her whole length. Deckload broke adrift, smashing the skylight and letting the water into the cabin at light and letting the water into the cabin at a fearful rate. Carried away our main staysail, lower top sail, fore-sail and bowsprit stay, besides having main sail and quarter-sail badly split, and receiving other serious damage. Had fine weather the latter part of the passage, the wind NE, until near the Islands, then bad, the wind during the last six days from W to NW. Arrived at this port on the 16th, after a passage of 41 days."

DOMINION PARLIAMENT,-The meeting o the Dominion Parliament has been furthe prorogued to the first day of February, and not then to meet for the dispatch of business. It is, therefore, probable that allalion may be made in the opening speech to the acceptance of the Terms of Confederation by British Columbia.

ST ANDREW'S AND CALDONIAN SOCIETY .-At a meeting of the cociety last evening t committee of three were appointed to confer with the French Beneuolent Society, the Odd Fellows and Good Templars with respect to the Friendly Societies' Bul.

FESTIVAL .- Next Wednesday evening is set for one of the pleasantest re-unions of due to the Blainland, John Landson and Steel of territory.

It is population would certainly increase more member for Yale was not so fair as the one member for Yale was not so fair as the one made by the Government.

He thought the Government, He thought po-

IMPORTANT Assay. - The announcement was made in this journal some time ago of a silver quartz ledge not far from Yale. We bave been shown a certificate of assay made of some of the quartz at the Back of British North America, which shows \$401 80 100 silver to the ton and traces of gold. The ledge is on the opposite side of the river from Yale, about eight miles distant, and in the Ecolouck mountains. We understand the ledge is large and well defined.

Police Court .- In this Court yesterday Patrick Ginley and J McDowell to recover the sum of \$16, alleged to be due as wages. The case was postponed and the parties retired to settle the case meanwhile..... A charge of receiving certain property known to have been stolen, preferred against a reapectable citizen, was partly heard and post-poned. The property is alleged to have been part of the proceeds of a burglary on Fort street, several weeks since.

S I Sugar. - Heavy rains prevailed through December at the Islands and the Commercial Advertiser says there will be but little sugar to ship before New Year. Some of the dark sugars sent to Europe, this year, have notted fully one cost per pound over San Francisco prices, and that sent to New Zealand and Sydney from 1½ to two cents per pound more.

' Music Hath Charms,'-T N Hibben & Co have presented us with several pieces of new music, among which we may mention, Oome, Bridio, Come! O, light at my window, and In her Little Bed we Laid Her, sweet ballads, and three pieces of dance music. T N Hibben & Co received per last steamer a large assortment of new ballads which they are disposing of rapidly at the usual moderate rate.

ARRIVED SAFELY .- A telegram from Yale yesterday announces the safe arrival there of Mr Aaron Jehnson, before reported lost in the snow.

NEARLY all the snow has disappeared from Matsqui Prairie and heavy rains have prevailed there for two days.

Ir is reported that Major Downie and many others from Downieville, California, are coming to Omineca.

THE brig Robert Cowan was expected to sail from Honolulu for Victoria about the 12th of January. OUR SALMON is selling at \$12 per barrel

at Honolulu and \$25 per barrel at Melbourne.

By Glectric Telegnaph, SPECIAL TO THE DAILY BRITISH COLONIST.

LAST NIGHT'S DISPATCHES.

British Columbia. YALE, Jan 20—The Express has just arrived from New Westminster after a trip of eight days, having been six days coming from Hartison River. Johnson, the reported missing man, came with it, having been evertaken by the Express eight miles below

here. He reports the river full of ice from 20-Mile Ranch to Yale, and between three and four feet of snow on the trail. He had to lay over three days near Scabird Island on account of wind and snow. There were about three feet of snow here last night, but it is rapidly disappearing,

rain having set in during the night.

A great many snow sildes from the mountains along the road are reported, which have blocked it in one or two places but have not broken any portion away. No other news of

LYTTON, Jan 20—Heavy storm from the South since last night, accompanied with showers of rain. The wagon road is reported in good condition.

LYTTON, Jan 20—No more snow here. At Kamloops the last report said there was but one foot there, at Yale twenty inches, Chilipsek injusteen inches, Markey is civitizen in

liwack nineteen inches, Matsqui eighteen in

and Quality READY FOR BOTTOMING. Just Arrived Per LADY LAMPSON.

HE. MEANNA SEED.

TOPHYSICIANS.

Allow me to call your attentio my PREPARATION
OF COMPOUND EXTRAOT BUCHT ne component parts
are, BUCHU, Long LEAP, CUBERS, JUNIPER BERRIES:

Moss of Preparation—Buchu, in vacuo. uniper Ber rles, by distillation, to form a fine gin. extract of by displacement with spirits obtained from Juni;—8 Berries; very little sugar is used and a small propertion of spirit. It is more palatable than any new n use.

Buchu as prepared by Pruggists, is of a dark color. It is a plant that emits its fragrance; the action of a flame destroys this (its active principle), leaving a dark and glutinous decortion. Since is the color of ingredients. The Buchu in my preparation predominates he smallest

quantity of the other ingredients are added, to preven quantity of the other ingreatents are aduct, o present fermentation; upon inspection it will be found not to be a Theture, as made in Pharmacopaa, nor is it a Syrup— and therefore can be used in cases where fever or in-mantion crists. In this you have the knowledge of the ngredients and the mode of preparation

Hoping that you will favor it with a trial, and that pon inspection it will meet with your approbation.

These different medicines represent the most recent incidical discoveries, founded on the principles of Chemistry and therapeutics. They must not be confunded with secret or quack me icines, as, their hames sufficiently indicate their composition; a circumstance which has caused them to be appreciated and prescribed by the faculty in the whole world. They widely differ from those numerous medicines advertised in the public paper as able to come every possible abears, as they are applicable only to but a very few completint. The medical preparations, and only those which bare undergone an examination by the Academy of Medicine, and have been proved efficacious, either in the Hospitais, or in the practice of the first medical men, are authorised by the Government. This fact must be a guarrantee for the excellency of Messers, Ghimault N.Co's medicines. ELECTRO PLATEDWARE -Tea Services, Ta-

Betts's Capsule Patents

Wonderful results have been obtained from the use of less eigerettes, by persons suffering from Acthma and ther complaints of the respiratory organs.

N. B.—All the above medical preparations are accompated by instructions as to the manner in which they are to be taken, General Depot:

Messrs. LANGLEY & CO.

M R JOHN G. NORRHS HEAN KINDLY consented, and is hereby authorized, to collect subscriptions and donations for the Royal Itophial.

E. CHIDGE.

Hon'y Sect'y. Are being intringed by Importation of Capsules made in contravention of his rights, which necessarily are nu-merous, BRTES being the original Inventor and Sole Maker in the United Kingdom.

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruginous preparations of containing from and Phesphoreus, which are the elements of the blood it cures culorosis, pains in the stomach, difficult digestions, dismenorrhea, anaemia, general debility and poorness of the blood, and agrees especially with the mostelicate stomachs.

LING DISEASES. Grimault's Syrup of Hypophosphite of Lime. It is the best and the most rational of all remedies against consumption. Under its influence the cough thates, the night sweats cease, and the patient rapidly recovers ben th. It gives the seme results in cases of sough, contarts, hooping coughs and influenza. In somparing this syrup with the other sold under the same neme, it will be easy to recognize the superiority of this reparation.

Therefore to avoid any substitution, please to require he bittle the signature: Grimault and Co.

NERVOUS MEADACHE and NEURALGIA.

A single powder of thi snatural vegetable production t sufficient to cure instantly the most violent sick head-ache. It is the most valuable remedy against diarrhea,

ARANA

Digestive Powders, Pills & Elexir of PEPSINE On certain effect against nausea, pituite, beart burn, gastride, gastralg'a, children's diarrhoa, inflamation of the mucous coate of the stomach and bowels, voiniting curing pregnancy jaundice, etc.

NO MORE, COPABIATOR CUBERS.

Grimault's Capsules and Liquid Extract of Matico Vegetalis.

Where all oiner Med cines have failed, these prepara-tions will always effect a core. These insure rapid and extraordinary quiet of severe, rece it and chronic cased private disease. They are used in the Hospitsis of Paris, by the celebrated for Ricord, and are found greatly su-perior to all hitherto known mineral remedies and Co-pabla and Cubels. The injection is used in recent and capsules in the more chronic cases.

NO MORE DIFFICULT OR PAINFUL DIGESTION! DR BURIN DU BUISSON'S DIGESTIVE LOZENGES.

Tils dellebus preparation is always prescribed by the nostreputed medical men in France, in cases of demandments of the dispetitive functions, such as gastritus, castralgia, long and laborious digestions, wind in the stomach and bowels, emanchation, jaundice and complaints of the liver and loins.

They are considered by physicians as being superior to the celebrated Vichy Lozenger.

Largesse's Syrup & Faste OF SEA PINE SAP. theset we preparations are invaluable and taken with the ntmost (cosses for consumption and the various diseases of the chert, and especially for coughs. colls, cat arrabs, industry, hosping cough, brouchitis, asthma and also for the different affections, of the urinary organs

FERRUGINOUS SYRUP.

OF PERUVIAN BARK.

Superior to all the compounds of Iron for all diseases of the chest, fainting, nervous affections, painful diseases those and imposerished blood; it is recognized as the best and most agreeable remedy ASTHMA, ASTHMA, ASTHMA
